QUOTATIONS

We can provide fast and accurate pricing quotes for jobs of any size and duration, keeping you well within their project budget. We will work closely with your Bills of Materials to find areas where we can save additional costs. Quote files are always saved electronically for future reference.

CUSTOM LABELING & PACKAGING

We're happy to accommodate any specific needs you may have when it comes to custom labeling, barcode printing, packaging, and upon request, parts assembly. Certain restrictions may apply, but we typically can work with any special requests.

We offer roll around cages full of material to deliver directly to customer's jobsites. We'll go back on a schedule and swap out or restock those job carts with new material. The carts act as a lockable, mobile mini-stockroom; great for repeating jobs going down a line.

WIRE SERVICES

Wire Paralleling

Elliott Electric Supply can help get your job done quicker with parallel reels. If your job requires multiple conductors going through the same space, why not have them put on a reel together? This small step can save time, labor, cost, headaches and sometimes, sanity.

Wire Cutting

Hauling around more wire than you need can waste space and increase fuel consumption. For a small fee, Elliott Electric Supply can cut your wire to your specified foot length, so you can have what's required for your job while reclaiming precious space and reducing costs.

Pulling Heads Installation

Elliott Electric Supply can save you significant time and cut your labor costs on wire pulls by installing pulling heads. Our employees are professionally trained with proper installation techniques and we guarantee heads installed by Elliott Electric Supply will not come off during pulls.

SIMPull™* Reel Rentals

Are you struggling with unwinding wire from a stationary reel? Elliott Electric Supply offers SimPull Reel Rentals so you can unroll your wire with ease.

Trailer/Truck and A-Frame Rentals

If you don't have the means (or don't want) to lug reels to your jobsite, you can schedule a loaded trailer or truck from Elliott Electric Supply. You can pull wire right from the trailer, expediting your pulls. We can also rent A-frames, where we'll load it on the frame for you, so you can just drop the whole thing on the job site, and you're ready to go!
