| Features               | Scotch® Super 33+™ Vinyl Electrical Tape is a premium grade, 7 mil thick, all-weather vinyl-insulating tape. It is designed to perform continuously in ambient temperatures up to 105°C (220°F). The tape is conformable for cold weather application down to -18°C (0°F). It has excellent resistance to abrasion, moisture, alkalis, acids, corrosion and varying weather conditions (including ultraviolet exposure). The combination of elastic backing and aggressive adhesive provides moisture-tight electrical and mec |
| Long Description       | "Scotch® Super 33+ Vinyl Electrical Tape, 3/4 in x 76 ft, 1 in Core,Black, 10 rolls/carton, 100 rolls/Case"                                                                                                                                                                                                                                                                                                                                                                                                                    |
