Descriptions

Description	14-8AWG STL CRIMP SLEEVE
extra long description	NSI SB1408S Crimp Sleeve 14-8 Steel
Features	Connecting wires is faster and easier than ever with the professional performance features of Easy-Twist wire connectors from NSI. The steel crimp sleeve wire connector provides a quick, economic and vibration-resistant way to form permanent connections in most applications. Simply twist your wires to form a connection, then slide the sleeve "sometimes called a ground cap" down to the twist and crunch it tight with adjustable pliers or a specialized crimping tool. We designed these brass-plated steel cri
Long Description	The Easy-Twist SB1408S 50-Count Pack of Steel Crimp Sleeve Wire Connectors are designed for use on wires in the 14-8 AWG size range. The simple brass-plated sleeve design forms low-resistance connections in a tight space and installs using a specialized crimp tool or adjustable pliers. Use crimp sleeves to permanently connect wires in grounding, uninsulated or small motor applications where vibration resistance is a concern.
